

## ARITHMETIC

### (add)

- recursive definition

$$a_n = a_{n-1} + d$$

- explicit formula

$$a_n = a_1 + (n-1)d$$

- ## • Sum of finite series

$$S_n = \frac{n}{2} (a_1 + a_n)$$

## GEOMETRIC (multiply)

- recursive definition

$$q_n = q_{n-1} \cdot r$$

- explicit formula

$$a_n = a_1 \cdot r^{n-1}$$

- sum of finite series

$$S_n = \frac{a_1(1-r^n)}{1-r}$$

- ## • sum of infinite series

$$S = \frac{a_1}{1-r}, |r| < 1$$

## Summation Notation

ending value of n

$\sum_{n=1}^{\infty}$  explicit formula

$n =$  starting value of  $n$ .

## PASCAL's $\Delta$

		1	1						
		1	2	1					
		1	3	3	1				
		1	4	6	4	1
